

Tasmanian Government ICT Strategy

Planning and investing in ICT as one government

Strategy Vision

The Tasmanian community will benefit from improved and transformed service delivery, greater public sector productivity and informed decision making, which will be enabled by ICT resources that are forward-looking, adaptable and effectively managed across the public sector.

Principles

How we need to operate:

Align all future investment with the ICT Strategy

Use a mixture of whole-of-government and agency ICT services

Follow best practice in the planning, development and operation of ICT

Objectives

To deliver the vision, we need to:

What success will look like – KPIs

Show strong leadership

2014: Aligned ICT investment
2015: Agency re-design of ICT

Use ICT to be more efficient and effective

2017: Common commodity business processes

Work together to serve our shared clients

2015: One stop government service; school/students/parents connected
2017: Integrated information and services

Share our information

2015: Government data available
2017: Spatial information accessible

Provide common services

2017: Commodity ICT provided as service

Actions

The actions we take will:

Improve management

Build capacity

Transform service delivery
